SMARTTVIQ

iQ3 MODEL: STViQ/3

ABSOLUTE PROTECTION ULTIMATE FILTRATION

POWER PROTECTION

NOISE FILTRATION

WARRANTY

REACTION TIME

FEATURES

3 PIN ADAPTOR (CLOVER LEAF)

SPACE SAVING FLAT HEAD PLUG

1.2M CABLE LENGTH

FIRE RETARDENT

6 YEAR REPLACEMENT WARRANTY

PROTECTS

FLATSCREEN TV

PROJECTORS

POS/CASH REGISTER

COMPUTERS

MODEL: STViQ/3

SMARTTVIQ (103)

SC REGENERATION TECHNOLOGY

ABSOLUTE PROTECTION ULTIMATE FILTRATION

The STViQ uses a patented technology that revolutionises power protection. A standard power board may survive 1 or 2 exposures to 6,600V. The STViQ was exposed to 100 strikes at 6,600V within 1 hour and was performing like new with absolutaley no signs of stress or damage.

Power indicator

2 IEC connector

2 3 pin adaptor (clover leaf)

4 Space saving flat head plug

The slimline design allows for in-line insertion behind space challenge wall mounts. Is ideal for attaching to these wall brackets with the whole product no larger than a 3 pin plug used to power these devices. Great for projectors, point of Sale equipment and even computers, Tablets and Laptops.

TECHNICAL SMARTS

Product Dimensions: $160mm (L) \times 25mm (H) \times 25mm (W) | Supply voltage 240/V AC 50Hz | Maximum current rating 5amps/1200 W (VA) | Clamping Voltage 275VAC | Reaction speed less than 1 nanosecond | EMI/RFI noise reduction filter | In-line protection application | Operating conditions Indoor AC/Mains | Operating temperature -10C/+60C | Cable lenght 1.2m | Model no. STViQ/3$

INSIDE THE SMART BRAIN

SmartBrain entry level filter is a passive technology. Managing to cover a wider range of shielding to like competitors by "cleaning" a wider range of unwanted frequency noise. The filter works both ways. Stopping noise from robbing equipment performance as well as connected devices' noise contaminating power.
