THE ULTIMATE PROTECTION

SmartBoard Smart Series with unique Dynamic Active Tracking™ is the most comprehensive and advanced solution to protect your electronic equipment.

- 1 AV/TV connection (in and out)
- 2 Bank 1 (1 outlet): Surge protection only
- 3 Bank 2 (3 outlets): Surge protection and filtering
- 4 Bank 3 (4 outlets): Surge protection and filtering
- 5 Large plug adaptors
- 6 RJ 45 data protection (1 in and 1 out)
- 7 Resettable safety 10 amp circuit breaker

SmartBrain has a premium filter technology called Dynamic Active Tracking. This unique filter has the best chance of "cleaning" electrical noise because it shields around 40% more frequencies when compared to other filters. It is an Active filter and can "clean" unwanted frequencies on both the upward curve and the downward curve of a sine wave (power). Most other filters only work at the crest of the wave and therefore miss a huge section of these unwanted frequencies that can generate noise on sensitive electronic devices.

INSIDE THE SMART BRAIN

There are 5 separate earth lines which is a hum/loop reducing feature. This feature stops component cross talk and ensures isolation between the 3 x AC Banks (1 x 1 outlet; 1 x 3 outlet; 1 x 4 outlet) as well as the antenna/F type and Data connections. True circuit isolation ensures best performance for all connected equipment.
