

6 YEAR PRODUCT WARRANTY

Congratulations on purchasing Australia's finest power protection.

Unless otherwise stipulated in a separate and specifically superseding Product Guarantee, all THOR power protection products are guaranteed for a period of six (6) years from date of original purchase against damage or failure due to faulty components or workmanship. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Notice to New Zealand Consumers

Our goods come with guarantees that cannot be excluded under the Consumer Guarantees Act 1993. This warranty should not be construed as any attempt to contract out of or exclude any or the guarantees available to any consumers under this Act provided that you agree that the provisions of the Consumer Guarantees Act 1993 will not apply if you are acquiring the goods for the purpose of a business.

This warranty shall not cover normal and expected wear and tear, damage, malfunction or failure resulting from accident, misuse or misapplication, improper or unauthorised repair, neglect, modification or use of unauthorised replacement parts or accessories, operation of the unit beyond its technical and environmental specifications, infestation by insects or vermin or interfacing supplied by the customer or improper voltage. The warranty shall be void if the rating label or date code has been removed or altered.

This THOR product is sold by the Dealer or Agent as principal. The Dealer or Agent has no authority from THOR Technologies Pty Ltd to express any additional warranty or guarantee on the Company's behalf except as herein contained. This warranty only applies to the purchase and use of the product in Australia and New Zealand.

To the extent permitted by the relevant legislation in Australia and New Zealand, THOR Technologies Pty Ltd will not accept or have any other responsibility or liability whatsoever for negligence or liability for incidental, consequential, indirect or special damages, including without limitation, loss of actual or anticipated revenue or loss of data or for data being rendered inaccurate.

THOR TECHNOLOGIES COMMITMENT TO EXCELLENCE

SMARTFILTER DUO

MODEL: C2

Specifically built for home office equipment, computers, home theatre components, sewing machines, fridges, freezers, washing machines and for users wanting Thor's superior AC stepped power protection.

PLEASE REVIEW THE FOLLOWING OPERATING INSTRUCTIONS TO ENSURE YOU RECEIVE MAXIMUM BENEFIT FROM THIS STATE OF THE ART FILTER AND PROTECTION DEVICE.

The THOR Smart Filter, with 2 protected outlets, provides the highest specification entry-level protection available, significantly higher than our competitors. To receive optimum performance from this power board, please note these usage hints:

1. Plug the AC power cord from your smart filter into your wall outlet and observe the status of the two LED lights.
2. When lit, **EARTH OK** indicates your power source is grounded and any incoming transient spikes that are not absorbed by the unit's circuitry are diverted to earth. If this LED does **not** illuminate it is likely you have a wiring anomaly in your outlet or building, requiring the assistance of a qualified electrician to properly earth the outlet or building. It is a condition of our warranty that the unit is only connected to a correctly wired environment.
3. The **POWER** LED indicator should always be on when the unit is plugged into a wall outlet. Failure for this LED to operate indicates the sacrificial circuitry has performed its function - preventing damaging spikes and surges from entering your equipment and the unit needs to be replaced. Contact THOR Technologies Pty Ltd for instructions on replacement.

Should you feel your THOR power board is malfunctioning, unplug the unit from the wall and contact our info-line 1300 766 140 during business hours (after hours please leave your details on the THOR info-line and we will return your call the following working day). Please have available at the time you speak with our service department the unit so you may identify the model number and the date of manufacture which is impressed on the back of the unit as well as a description of the difficulty you are experiencing and your retail invoice or bill of sale.

Bonus Cable Ties: As an aid to always being able to identify without hesitation which appliance are plugged where on your THOR Smart Filter, we have provided inside the gift box a special tear-way sheet of uniquely designed cable ties, individually identifying a wide-range of products that would be typically protected by your power board. In addition, we also provide several blank cable ties that you may use around the house or to identify products not mentioned on our list. Carefully separate the cable tie that identifies the equipment you connect to the THOR Smart Filter and loop and thread it around the plug and tighten accordingly. No more guessing which plug is connected to which appliance.
