

6 YEAR PRODUCT WARRANTY

Congratulations on purchasing Australia's finest power protection.

Unless otherwise stipulated in a separate and specifically superseding Product Guarantee, all THOR power protection products are guaranteed for a period of six (6) years from date of original purchase against damage or failure due to faulty components or workmanship. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Notice to New Zealand Consumers

Our goods come with guarantees that cannot be excluded under the Consumer Guarantees Act 1993. This warranty should not be construed as any attempt to contract out of or exclude any of the guarantees available to any consumers under this Act provided that you agree that the provisions of the Consumer Guarantees Act 1993 will not apply if you are acquiring the goods for the purpose of a business.

This warranty shall not cover normal and expected wear and tear, damage, malfunction or failure resulting from accident, misuse or misapplication, improper or unauthorised repair, neglect, modification or use of unauthorised replacement parts or accessories, operation of the unit beyond its technical and environmental specifications, infestation by insects or vermin or interfacing supplied by the customer or improper voltage. The warranty shall be void if the rating label or date code has been removed or altered.

This THOR product is sold by the Dealer or Agent as principal. The Dealer or Agent has no authority from THOR Technologies Pty Ltd to express any additional warranty or guarantee on the Company's behalf except as herein contained. This warranty only applies to the purchase and use of the product in Australia and New Zealand.

To the extent permitted by the relevant legislation in Australia and New Zealand, THOR Technologies Pty Ltd will not accept or have any other responsibility or liability whatsoever for negligence or liability for incidental, consequential, indirect or special damages, including without limitation, loss of actual or anticipated revenue or loss of data or for data being rendered inaccurate.

THOR TECHNOLOGIES COMMITMENT TO EXCELLENCE

APEX™ 6

MODEL: D6+

Specifically built for home office equipment, computers, home theatre components, sewing machines, fridges, washing machines and for users wanting Thor's superior ac stepped power protection.

PLEASE REVIEW THE FOLLOWING OPERATING INSTRUCTIONS TO ENSURE YOU RECEIVE MAXIMUM BENEFIT FROM THIS STATE OF THE ART FILTER AND PROTECTION DEVICE.

The THOR APEX™ 6, with 6 protected outlets, provides the highest specification premium-level protection available, significantly higher than our competitors. To receive optimum performance from this power board, please note these usage hints:

1. Plug the AC power cord from your APEX™ 6 into your wall outlet and observe the status of the two LED lights.
2. When lit, EARTH OK, LED indicates the wall outlet the board is plugged into has an effective grounding connection. This is critical to ensure that spikes and surges can be diverted to earth which will maximise the protection and extend the life of the product. It is also a safety feature and if Earth LED is not lit may indicate that circuit might need an electrician to inspect.
3. The PROTECTION ON LED indicator should always be on when the unit is plugged into a wall outlet. Failure for this LED to operate indicates the sacrificial circuitry has performed its function - preventing damaging spikes and surges from entering your equipment and the unit needs to be replaced. Contact THOR Technologies Pty Ltd for instructions on replacement.

WHEN INSTALLING THE RJ45 PROTECTION FOR YOUR PHONE OR AERIAL (or ROUTER or MODEM), TV, FOXTEL YOU MUST ENSURE THE AC MAINS POWER CORD IS PLUGGED INTO A CORRECTLY INSTALLED WALL SOCKET FIRST.

THE PRODUCT MUST BE CONNECTED TO A CORRECTLY INSTALLED 240V MAINS WALL SOCKET WITH A PROTECTIVE EARTH CONNECTION BEFORE CONNECTING OR DISCONNECTING THE DATA/COMMUNICATIONS CABLES. CONNECTIONS, WHETHER SOCKET OUTLETS OR PRODUCTS MUST BE DONE BY QUALIFIED PERSONNEL AT ALL TIMES. IF THE SUPPLY CORD IS DAMAGED, IT SHALL BE REPLACED BY THE MANUFACTURER ITS SERVICE AGENT OR SIMILARLY QUALIFIED PERSON IN ORDER TO AVOID A HAZARD.

This device has been designed for indoor use on AC mains and DC telecommunications systems which meet Australian and New Zealand AS/NZ standards.

1. Connect your incoming communication from your wall outlet directly to the INPUT RJ jack on the end of APEX™ 6.
2. Now connect your equipment (telephone, router or modem) to the OUTPUT RJ jack.
3. Now all incoming calls/data must pass through the protected outlet on your THOR APEX™ 6, providing you with the maximum protection and reliability your products deserve.
4. Connect the incoming coax & "F" type aerial connections using the same principle as the instructions from 1 to 3 above.

Bonus Feature: NBN ready RJ45
