## REGENERATIVE POWER PROTECTION AND FILTRATION

Now with new patented non-sacrificial technology, the PRODIGY 4 combined with its space-saving design means you can have surge protection and filtration anywhere, giving you peace of mind that your valuable electronic equipment is protected.

**1** Antenna connection (in and out)

**2** Single Bank (4 outlets): Surge protection and filtering

**3** Space for 4 large plug adaptors

**4** Resettable safety 10 amp circuit breaker

**5** Fireproof MOV

Fireproof MOV ensures the main protection components will not catch fire while protecting from dangerous surges. The choice of Fireproof components and the added flame retardant housing safeguards ensures your home and family will always be safe.

**6** Braided 1.2m cable

 **PATENTED NON SACRIFICIAL TECHNOLOGY**

Unlike current traditional surge protection technology Thor's Patented circuit is not sacrificial. It uses a regeneration process to absorb spikes and surges then resets itself ready to protect over and over again. To use an analogy, think of a shock absorber. A shock absorber is designed for absorbing the energy of sudden impulses or shocks in machinery or structures and once that energy has been absorbed, it resets back to its default state. Our Patented Non-Sacrificial Technology does the same except working against dangerous spikes and surges in power.
