PRODIGY POWER STATION

ULTIMATE REGENERATIVE POWER PROTECTION AND FILTRATION

Pure pristine power 24/7. For ultimate in power conditioning with under/over voltage stabilization that enhances performance without changing the THD so Audiophiles love it! It can deliver 240V output or (user selectable) option 220V to deliver the power your system was designed for.

Now including the PRODIGY 8 with new patented non-sacrificial technology, the most comprehensive and advanced solution to protect your electronic equipment.

FEATURES

-  8 PROTECTED OUTLETS
-  2 ISOLATED BANKS
-  PURE SINE WAVE OUTPUT
-  UNDER AND OVER VOLTAGE STABILISATION
-  AERIAL PROTECTION
-  PAY TV PROTECTION
-  DATA/VOICE PROTECTION NBN COMPATIBLE
-  4 LARGE PLUG ADAPTORS
-  ALARM BUZZER DETECTS IF SURGE CIRCUIT IS DAMAGED
-  1 NANO SECOND REACTION TIME
-  1.8M CABLE
-  FIRE RETARDANT
-  6 YEAR REPLACEMENT WARRANTY

- 1** Input Voltage Display
- 2** Output Current Display
- 3** Output Voltage Display
- 4** Working Normal Display
- 5** Delay Start Switch
- 6** Power Switch
- 7** Display On/Off Switch
- 8** Input - IEC Male
- 9** Reset Circuit Breaker
- 10** P8 Board Input
- 11** User Selectable Output Setting (240v or 220v)
- 12** External Earth Connection

Unlike current traditional surge protection technology Thor's Patented circuit is not sacrificial. It uses a regeneration process to absorb spikes and surges then resets itself ready to protect over and over again. To use an analogy, think of a shock absorber. A shock absorber is designed for absorbing the energy of sudden impulses or shocks in machinery or structures and once that energy has been absorbed, it resets back to its default state. Our Patented Non-Sacrificial Technology does the same except working against dangerous spikes and surges in power.

TECHNICAL SMARTS

Product Dimensions: 436mm (W) x 195mm (H) x 380mm (D) | Supply Voltage: 240/Vac 50Hz | Maximum Current Rating: 10amps/2400 W (Va) | Wave Form: Pure Sine Wave | Operating Voltage: 180v - 260v | Incoming Voltage out of designed range (i.e. 180v - 260v): if input was 270v then output would be approx 250v to 255v | Incoming Voltage out of designed range (i.e. 180v - 260v): if input voltage was 140v then output would be approx 230v - 235v | Safety Approval No: RCM 5287 | Model No: PS10 | Double Filtration and Protection Management: Prodigy P8 Board included.

PROTECTS

-  ALL SCREEN TECHNOLOGY
-  TOP END HIFI AND AUDIO
-  COMPUTERS AND AV SERVERS
-  ANY DEVICE THAT PERFORMS BETTER WITH PURE POWER 24/7

-  AUSTRALIAN DESIGNED AND ENGINEERED
-  ALL R&D CARRIED OUT IN AUSTRALIA AND NEW ZEALAND

Made in China

THOR THOR Technologies Pty Ltd
