

# 6 YEAR PRODUCT WARRANTY

Congratulations on purchasing Australia's finest power protection.

Unless otherwise stipulated in a separate and specifically superseding Product Guarantee, all THOR power protection products are guaranteed for a period of six (6) years from date of original purchase against damage or failure due to faulty components or workmanship. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

#### **Notice to New Zealand Consumers**

Our goods come with guarantees that cannot be excluded under the Consumer Guarantees Act 1993. This warranty should not be construed as any attempt to contract out of or exclude any or the guarantees available to any consumers under this Act provided that you agree that the provisions of the Consumer Guarantees Act 1993 will not apply if you are acquiring the goods for the purpose of a business.

This warranty shall not cover normal and expected wear and tear, damage, malfunction or failure resulting from accident, misuse or misapplication, improper or unauthorised repair, neglect, modification or use of unauthorised replacement parts or accessories, operation of the unit beyond its technical and environmental specifications, infestation by insects or vermin or interfacing supplied by the customer or improper voltage. The warranty shall be void if the rating label or date code has been removed or altered.

This THOR product is sold by the Dealer or Agent as principal. The Dealer or Agent has no authority from THOR Technologies Pty Ltd to express any additional warranty or guarantee on the Company's behalf except as herein contained. This warranty only applies to the purchase and use of the product in Australia and New Zealand.

To the extent permitted by the relevant legislation in Australia and New Zealand, THOR Technologies Pty Ltd will not accept or have any other responsibility or liability whatsoever for negligence or liability for incidental, consequential, indirect or special damages, including without limitation, loss of actual or anticipated revenue or loss of data or for data being rendered inaccurate.

THOR TECHNOLOGIES COMMITMENT TO EXCELLENCE

The THOR logo is rendered in a bold, black, sans-serif font. The letters are thick and blocky, with a slightly irregular, industrial feel. The 'H' and 'O' are particularly prominent. The logo is centered horizontally at the bottom of the page, flanked by horizontal lines that extend towards the left and right margins.

# ALPHA SL1M

MODEL: A1M

The ALPHA SL1M is a small form factor, in-line filter with a standard Australian 3 pin plug and socket. The slimline housing is designed to fit in small spaces, such as behind a TV wall mounting bracket. The handy Velcro straps assist with fixing the A1M to a nearby surface if required.

PLEASE REVIEW THE FOLLOWING OPERATING INSTRUCTIONS TO ENSURE YOU RECEIVE MAXIMUM BENEFIT FROM THIS STATE OF THE ART FILTER AND PROTECTION DEVICE.

The THOR ALPHA SL1M with 1 protected outlet, provides the highest inline premium-level protection available, significantly higher than our competitors. To receive optimum performance from this product please note these usage hints;

1. Connect the manufacturers supplied cord and plug into the device to be filtered and protected if not hard wired.
2. Then plug the cable into the ALPHA SL1M's Australian 3 pin socket.
3. Once the device is connected to the ALPHA SL1M's socket, connect the ALPHA SL1M's 3 pin plug side into a wall outlet and switch on.
4. The PROTECTION ON LED indicator should always be on when the unit is plugged into a wall outlet. Failure for this LED to operate and a buzzer sounding indicates the sacrificial circuitry has performed its function - preventing damaging spikes and surges from entering your equipment and the unit needs to be replaced. Contact an approved stockist or ARISIT Pty Ltd to purchase a replacement.

**THE PRODUCT MUST BE CONNECTED TO A CORRECTLY INSTALLED 240V MAINS WALL SOCKET WITH A PROTECTIVE EARTH CONNECTION. CONNECTIONS, WHETHER SOCKET OUTLETS OR PRODUCTS MUST BE DONE BY QUALIFIED PERSONNEL AT ALL TIMES. IF THE SUPPLY CORD IS DAMAGED, IT SHALL BE REPLACED BY THE MANUFACTURER, ITS SERVICE AGENT OR SIMILARLY QUALIFIED PERSON IN ORDER TO AVOID A HAZARD.**

This device has been designed for indoor use on AC mains which meet Australian and New Zealand AS/NZ standards.
